The work on the new building started on April 11, 1905, and today,

June 10, it has so progressed that the stone wall has been already completed and
the brick has been laid on all walls higher than the level of the cornerstone,
which today is being sealed. The whole work is expected to be completed by

November 15 of this year.

Along with this document, the latest issues of the three local newspapers are being placed in the commemorative cornerstone box: Polish weekly "Wiarus," the only Polish paper in Minnesota, and two daily papers in the English language: "The Winona Republican Herald" and "The Morning Independent."

We pray to the Lord for a successful completion of the construction which has been so fortunately started without any turbulent events. May He grant us that in this abode of learning the Roman Catholic faith and our beloved Polish language be taught for all times and that in this new institution our youth be educated in a truly Polish spirit to the pride of our parish, to the advantage of the Polish and American society and to the greater glory of God in His Holy Trinity. With these prayers we, the members of the Building Committee, sign this document:

(ADDITIONAL NOTE:)

In the English translation of the above document, much thought was given to preserving the Johnsonian style. Some deviation was made necessary to preserve a clear cut sequence of thought incorporated in larger sentences and paragraphs as they appear in the original.
